

AUSTRALIAN ASEPTIC PACKED APPLE PUREE

A product that hits the mark in terms of manufacturing capabilities, Avondale Foods' fruit purees are ideal for bakeries and food manufacturers that lack refrigeration space, but are still looking for a premium fruit ingredient that is 'fresh' and versatile.

Avondale Foods puree products are pasteurised and aseptically packaged in our world-class, cutting edge facility. This allows a shelf life of 18 months, stored at room temperature.

We deliver puree in a wide size range of packaging which allows us to distribute our product in a form that best suits our clients. If your preferred packaging size is not listed below, please contact us directly for more information.

Applications

- Flavorful product providing a point of difference for numerous food manufacturers in various applications including smoothies, dairy preparation, desserts and baked foods, sauces, marinades and more.
- Healthy breakfast or snack alternative, ideal for people with dietary constraints.
